**Subscription Information**

*International Journal of Production Research* (ISSN 0020-7543) is published monthly by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK.

Annual subscription 1993 £530, US $910.

Personal subscription 1993 to members of the Manufacturing Division of the Institution of Electrical Engineers: £77, US $156. Personal subscriptions are available to home addresses only, and must be paid by personal cheque or credit card.

Second class postage paid at Jamaica, New York 11431. USA Postmasters: Send address changes to *International Journal of Production Research*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003. Air freight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

Printed in UK by Burgess Science Press, Rankine Road, Basingstoke, Hampshire RG24 0PR, UK. The paper used in this publication is 'acid-free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Masterdard/Access).

Orders originating in the following territories should be sent direct to the local distributor. **Australia:** R. Hill & Son Ltd, Suite 2, 119 Gardenvale Road, Gardenvale, Vic. 3185, Australia. **New Zealand:** R. Hill & Son Ltd, Private Bag, Newmarket, Auckland 1. **India:** Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017. **Japan:** Kinokuniya Company Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156. **USA, Canada and Mexico:** Taylor & Francis, Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007. **UK and all other territories:** Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR.

## VOLUME 30, 1992—CONTENTS

No. 1 January 1992

PAGE

Describing processing time when simulating JIT environments. K. MURALIDHAR, S. R. SWENSETH and R. L. WILSON ... ... ... 1

A knowledge based multi-level modelling system for the design of flexible machining facilities. W. WANG and R. BELL ... ... ... ... 13

An analytic framework for sequencing mixed model assembly lines. J. F. BARD, E. DAR-EL and A. SHTUB ... ... ... . . ... ... 35

A stochastic optimization of the production speed of robots based on measured geometric and nongeometric errors. K. S. MOON, F. AZADIVAR and K. KIM 49

A simulated annealing algorithm for allocating space to manufacturing cells. K. Y. TAM ... ... ... ... ... ... ... ... 63

The impact of a single input/output device on layout considerations in flexible manufacturing systems. R. A. MILLEN, M. M. SOLOMON and P. AFENTAKIS 89

CLASS: Computerized LAyout Solutions using Simulated annealing. S. JAJODIA, I. MINIS, G. HARHALAKIS and J.-M. PROTH ... ... ... 95

An analytical model for optimization of NC tool cutting path. R. K. LAKKARAJU, S. RAMAN and S. A. IRANI ... ... ... ... ... 109

Scheduling rule selection for the forbidden early shipment environment: a comparison of economic objectives. T. R. ROHLEDER and G. D. SCUDDER 129

Basic concepts of JIT modelling. O. MEJABI and G. S. WASSERMAN ... 141

The development of a generic PC-based programmable logic controller simulator. S. B. JOSHI and M. R. SUPINSKI ... ... ... ... 151

Dynamically determined optimal inspection strategies for serial production processes. I. N. CHENGALUR, D. P. BALLOU and H. L. PAZER ... ... 169

Machinability study on pearlitic spheroidal graphite cast iron. S. SHANMUGAM and R. KRISHNAMURTHY ... ... ... ... ... ... ... 189

A comparative analysis of sequencing procedures for mixed-model assembly lines in a just-in-time production system. R. T. SUMICHRAST, R. S. RUSSELL and B. W. TAYLOR, III ... ... ... ... ... ... ... 199

Book review ... ... ... ... ... ... ... ... ... 215

Corrigendum ... ... ... ... ... ... ... ... ... 216

Erratum ... ... ... ... ... ... ... ... ... ... 216

Announcements ... ... ... ... ... ... ... ... ... 217

No. 2 February 1992

PAGE

Concurrent tool and production system design for a surface broach cutting tool: a knowledge-based systems approach. W. R. TERRY, R. KARNI and Y.-J. HUANG ... ... ... ... ... ... ... ... ... 219

An application of machine vision in the automated inspection of engineering surfaces. G. A. AL-KINDI, R. M. BAUL and K. F. GILL ... ... ... 241

JIT purchasing and setup reduction in an integrated inventory model. J.-D. HONG, J. C. HAYYA and S.-L. KIM ... ... ... ... ... ... 255

Effects of machine reliability and transporter speeds on flow time and production rates in component–process design. C. R. NAGARAJAH, W. THOMPSON and C. MCFARLANE ... ... ... ... ... ... 267

Structuring modular bills of material with usage pattern analysis. K. J. BALCERAK and B. G. DALE ... ... ... ... ... ... ... 283

Optimal tool replacement with nondecreasing tool wear. A. JEANG and K. YANG... ... ... ... ... ... ... ... ... ... 299

Adaptive control of a manipulator using artificial neural networks. L. C. RABELO and X. J. R. AVULA ... ... ... ... ... ... ... 315

Designing a pull-type parts procurement system for international co-operative knockdown production systems. S. HIRAKI, K. ISHII, K. TAKAHASHI and R. MURAMATSU... ... ... ... ... ... ... ... ... 337

Single product multistage production with material handler and central storage. A. HOUSHYAR ... ... ... ... ... ... ... 353

Maintenance policies in just-in-time manufacturing lines. V. ALBINO, G. CARELLA and O. G. OKOGBAA ... ... ... ... ... ... 369

Turning process model for steady-state optimal control. S. M. A. SULIMAN and G. A. HASSAN ... ... ... ... ... ... ... ... 383

In a multi-resource environment, how much is enough? J. DUMOND ... 395

Dynamic scheduling system utilizing machine learning as a knowledge acquisition tool. S. NAKASUKA and T. YOSHIDA .. ... ... ... 411

No. 3 March 1992

A modelling of interactive facilities layout designer reasoning using qualitative patterns. P. BANERJEE, B. MONTREUIL, C. L. MOODIE and R. L. KASHYAP 433

Average setup cost inventory model: performance and implementation issues. J. S. NEVES ... ... ... ... ... ... ... ... 455

Assembly line with flexible work-force. B. S. DOWNEY and M. S. LEONARD 469

Tool–chip contact length in orthogonal machining and its importance in tool temperature predictions. G. S. GAD, E. J. A. ARMAREGO and A. J. R. SMITH 485

Scheduling for minimizing total actual flow time by neural networks. I. ARIZONO, A. YAMAMOTO and H. OHTA ... ... ... ... ... 503

An investigation of the effect of machine flexibility and number of part families on system performance. U. NANDKEOLYAR and D. P. CHRISTY ... ... 513

PAGE

Flexibility trade-offs in a random flexible manufacturing system: A simulation study. Y. P. GUPTA and S. GOYAL ... ... ... ... ... ... 527

An international location and production transfer model for high technology multinational enterprises. P. HAUG ... ... ... ... ... 559

A branch and bound approach to facility design for continuous flow manufacturing systems. M. G. KETCHAM ... ... ... ... ... 573

Computer-aided tolerance assignment procedure (CATAP) for design dimensioning. K. PANCHAL, S. RAMAN and P. S. PULAT ... ... ... 599

A comparison of order release strategies in production control systems. L. M. RODERICK, D. T. PHILLIPS and G. L. HOGG ... ... ... ... 611

Assembly code generation from a feature-based geometric model. R.-K. LI and C.-L. HUANG ... ... ... ... ... ... ... ... 627

A unified optimization model of a machining process for specified conditions of machined surface and process performance. D. Y. JANG ... ... ... 647

OSL—optimal single-loop guide paths for AGVS. J. M. A. TANCHOCO and D. SINRIECH ... ... ... ... ... ... ... ... ... 665

A model for duplicating bottleneck machines in the presence of budgetary limitations in cellular manufacturing. R. LOGENDRAN ... ... ... 683

No. 4 April 1992

Comparative analysis of lot-sizing models for multi-stage systems: a simulation study. Y. P. GUPTA, Y. K. KEUNG and M. C. GUPTA ... ... ... 695

A simulated annealing procedure for single row layout problems in flexible manufacturing systems. P. KOUVELIS and W.-C. CHIANG ... ... 717

A comparison of tool management strategies and part selection rules for a flexible manufacturing system. K. AMOAKO-GYAMPAH, J. R. MEREDITH and A. RATURI ... ... ... ... ... ... ... ... ... 733

Dispatching rules and flexible environments: the influence of buffer behaviour. L. ZAVANELLA, A. AGLIARI and M. DILIGENTI ... ... 749

Performance characteristics of cryogenically treated high speed steel drills. S. CHATTERJEE ... ... ... ... ... ... ... ... ... 773

A heuristic for multi-level lot-sizing problems with a bottleneck. B. TOKLU and J. M. WILSON ... ... ... ... ... ... ... ... 787

Some performance measures of flexible manufacturing systems. N. NAGARUR 799

Machine fault classification: a neural network approach. G. M. KNAPP and H.-P. (BEN) WANG ... ... ... ... ... ... ... 811

New approaches for the nesting of two-dimensional shapes for press tool design. H. S. ISMAIL and K. K. B. HON ... ... ... ... ... 825

Lot-sizing for time-phased production. J. OVERFELD and TH. WITTE ... 839

PAGE

A splitting-up approach to simplify job-shop scheduling problems. C. CHU, M. C. PORTMANN and J. M. PROTH ... ... ... ... ... ... 859

A regression metamodel of a maintenance float problem with Erlang-2 failure distribution. C. N. MADU and M. N. CHANIN ... ... ... ... 871

Technology choice and capacity expansion with two product families: tradeoffs between scale and scope. S. LI and D. TIRUPATI ... ... ... ... 887

Determination of unit load sizes in an AGV-based material handling system for an FMS. B. MAHADEVAN and T. T. NARENDRAN ... ... ... ... 909

Improving shop floor control: an entropy model approach. A. KARP and B. RONEN ... ... ... ... ... ... ... ... ... 923

Multi-echelon service models for inventory systems under different rationing policies. A. G. LAGODIMOS ... ... ... ... ... ... ... 939

Book review ... ... ... ... ... ... ... ... ... 959

Announcement ... ... ... ... ... ... ... ... ... 960

No. 5 May 1992

Economic manufacturing quantity in a just-in-time delivery system. D. Y. GOLHAR and B. R. SARKER ... ... ... ... ... ... 961

Role of similarity measures in PCB grouping procedures. A. SHTUB and O. MAIMON ... ... ... ... ... ... ... ... ... 973

Process conditions of a stand-alone machining centre for maximum contribution to profit per unit time. M. KASPI and E. M. DAR-EL ... ... 985

Feature-driven, process-based approach to the integration of CAD/CAM in wireframe models. R. M. SCHULTE, S. PADMANABHAN and M. S. DEVGUN 1005

A mathematical programming approach for dealing with exceptional elements in cellular manufacturing. S. M. SHAFER, G. M. KERN and J. C. WEI ... 1029

Combined effects of linear and angular errors in pc board assembly. T. RADHAKRISHNAN ... ... ... ... ... ... ... ... 1037

Facet point drills—a comparative study. D. K. PRAMANIK ... ... ... 1045

Dynamic dispatching algorithm for scheduling machines and automated guided vehicles in a flexible manufacturing system. I. SABUNCUOGLU and D. L. HOMMERTZHEIM ... ... ... ... ... ... ... ... 1059

Strategic logistics in co-ordinated global manufacturing success. S. E. FAWCETT ... ... ... ... ... ... ... ... ... 1081

Manufacturing system cell formation and evaluation using a new inter-cell flow reduction heuristic. O. GEOFFREY OKOGBAA, M.-T. CHEN, C. CHANGCHIT and R. L. SHELL ... ... ... ... ... ... ... ... 1101

Simulation constructs for JIT modelling. O. MEJABI and G. S. WASSERMAN 1119

Joint lot-sizing and scheduling for multi-stage multi-product flow shops. P. A. PINTO and B. M. RAO ... ... ... ... ... ... ... 1137

PAGE

Choice of a periodic on-condition maintenance policy. C. PELLEGRIN ... 1153

Process plan generation for sheet metal parts using an integrated feature-based expert system approach. J. S. SMITH, P. H. COHEN, J. W. DAVIS and S. A. IRANI ... ... ... ... ... ... ... ... ... 1175

A heuristic procedure for component scheduling in printed circuit pack sequencers. D. R. SULE ... ... ... ... ... ... ... 1191

Change to group technology: process organization is obsolete. J. L. BURBIDGE 1209

Discussion: A note on 'Change to group technology'. J. C. WEI ... ... 1221

Announcements and Call for papers ... ... ... ... ... ... 1223.

No. 6 June 1992

A model for cell formation in manufacturing systems with sequence dependence. D. RAJAMANI, N. SINGH and Y. P. ANEJA ... ... ... 1227

Tooling constraints and shop floor scheduling: evaluating the impact of sequence dependency. S. GHOSH, S. A. MELNYK and G. L. RAGATZ ... 1237

An economic model for determining AGV fleet size. D. SINRIECH and J. M. A. TANCHOCO ... ... ... ... ... ... ... ... 1255

Comparison of make-to-order job shops with different machine layouts and production control systems. K. K. YANG and F. R. JACOBS ... ... 1269

Quantifying data for group technology with weighted fuzzy features. D. BEN-ARIEH and E. TRIANTAPHYLLOU ... ... ... ... ... 1285

Minimum time collision-free path planning for robotic assembly. R. S. REDMAN and A. S. EL-GIZAWY ... ... ... ... ... 1301

Order acceptance strategies in a production-to-order environment with setup times and due-dates. F. A. W. WESTER, J. WIJNGAARD and W. H. M. ZIJM 1313

Heuristic unidirectional flowpath design approaches for automated guided vehicle systems. P. KOUVELIS, G. J. GUTIERREZ and W.-C. CHIANG ... 1327

Machine–component cell formation in group technology: a neural network approach. S. KAPARTHI and N. C. SURESH ... ... ... ... 1353

Which one is responsible for WIP: the workstations or the material handling system? M. M. SRINIVASAN and Y. A. BOZER ... ... ... ... 1369

Planning tool requirements for flexible manufacturing: an analytical approach. L. ZAVANELLA and A. BUGINI ... ... ... ... ... 1401

Inter-process synchronization in steel production. C. M. PETERSEN, K. L. SØRENSEN and R. V. V. VIDAL ... ... ... ... ... ... 1415

A Petri net based approach for analysing tool management issues in FMS. C. E. REDDY, O. V. KRISHNAIAH CHETTY and D. CHAUDHURI ... ... 1427

Cut distribution and cutter selection for sculptured surface cavity machining. Y. S. LEE, B. K. CHOI and T. C. CHANG ... ... ... ... ... 1447

PAGE

Theory of constraints and linear programming: a comparison. R. LUEBBE and B. FINCH ... ... ... ... ... ... ... ... ... 1471

Book reviews ... ... ... ... ... ... ... ... ... 1479

Announcement ... ... ... ... ... ... ... ... ... 1481

No. 7 July 1992

Streamlining material flow in flexible manufacturing systems: a lesson in simplicity. H. C. CO ... ... ... ... ... ... ... ... 1483

METEX—An expert system for machining planning. R. SINGH and S. RAMAN 1501

An automated dimensional inspection environment for manufactured parts using coordinate measuring machines. H.-T. YAU and C.-H. MENQ ... 1517

A predictive neural network modelling system for manufacturing process parameters. D. F. COOK and R. E. SHANNON ... ... ... ... 1537

Two- and three-machine flow shop scheduling problems with equal sized transfer batches. R. G. VICKSON and B. E. ALFREDSSON ... ... ... 1551

Strategic acquisition of new manufacturing technology: a review and research framework. B. NAIK and A. K. CHAKRAVARTY ... ... ... ... 1575

A production planning model for cellular manufacturing systems with refixturing considerations. V. DAMODARAN, R. S. LASHKARI and N. SINGH ... 1603

Experimental investigation of FMS machine and AGV scheduling rules against the mean flow-time criterion. I. SABUNCUOGLU and D. L. HOMMERTZHEIM 1617

Server assignment for multi-state production systems with finite buffers. D.-W. TCHA, W.-T. LEE and G. YAMAZAKI ... ... ... ... ... 1637

Identification of change structure in statistical process control. Y. GUO and K. J. DOOLEY ... ... ... ... ... ... ... ... ... 1655

Component replacement policies for reworkable assemblies. W.-M. CHOW 1671

Assembly line system dynamic behaviour for high priority job order processing. J. K. COCHRAN and L. LIN ... ... ... ... ... 1683

Analysis of a manufacturing system via spreadsheet analysis, rapid modelling, and manufacturing simulation. C. M. HUETTNER and H. J. STEUDEL ... 1699

An artificial intelligence-based constraint network system for concurrent engineering. R. E. YOUNG, A. GREEF and P. O'GRADY ... ... ... 1715

Book reviews ... ... ... ... ... ... ... ... ... 1737

No. 8 August 1992

A process planning-orientated approach to part family formation problem in group technology applications. G. SHIKO ... ... ... ... ... 1739

Interaction between dispatching and next station selection rules in a dedicated flexible manufacturing system. R. M. O'KEEFE and T. KASIRAJAN ... 1753

PAGE

A multi-factor plant layout methodology. C. M. HARMONOSKY and G. K. TOTHERO ... ... ... ... ... ... ... ... ... 1773

Comparative analysis of multi-item joint replenishment inventory models. B. GOLANY and A. LEV-ER ... ... ... ... ... ... ... 1791

Product design in a concurrent engineering environment: an optimization approach. S. DOWLATSHAHI ... ... ... ... ... ... ... 1803

Flow shop scheduling in serial multi-product processes with transfer and set-up times. J. CAO and D. D. BEDWORTH ... ... ... ... ... 1819

Real-time conditional reliability prediction from on-line tool performance data. Y. S. KIM and W. J. KOLARIK ... ... ... ... ... 1831

An assessment of quality management in the US/Mexico export processing industry. G. A. VARGAS and T. W. JOHNSON ... ... ... ... 1845

Dynamic planning enriches concurrent process and production planning. N. E. LARSEN and L. ALTING ... ... ... ... ... ... 1861

Cost modelling for electrical interconnect design justification. N. S. ONG, L. E. N. LIM and K. T. YEO ... ... ... ... ... ... ... 1877

Discrete part manufacturing process control with quality considerations. R. P. DAVIS, W. G. FERRELL, JR., and S. SENGUPTA ... ... ... 1889

Machine tool chatter monitoring by coherence analysis. W. DONG, Y. H. JOE AU and A. MARDAPITTAS ... ... ... ... ... ... ... 1901

Celeritas: a coloured Petri net approach to simulation and control of flexible manufacturing systems. R. COSSINS and P. FERREIRA ... ... ... 1925

TESSA—A new greedy heuristic for facilities layout planning. S. G. BOSWELL 1957

EXCITE: Expert consultant for in-plant transportation equipment. J. O. MATSON, J. M. MELLICHAMP and S. R. SWAMINATHAN ... ... 1969

Announcements ... ... ... ... ... ... ... ... ... 1985

No. 9 September 1992

An analysis of the forecasting function in large-scale inventory systems. R. I. MOORE and J. F. COX ... ... ... ... ... ... ... 1987

Quick and dirty sequencing for mixed-model multi-level JIT systems. R. R. INMAN and R. L. BULFIN ... ... ... ... ... ... 2011

Integrated modular fixture design, pricing and inventory control expert system. LIM BENG SIONG, T. IMAO, H. YOSHIDA, K. GOTO, S. L. KOH, D. LIM, L. CHIN and S. C. GAN ... ... ... ... ... ... 2019

Managing system constraints: a cost/utilization approach. B. RONEN and Y. SPECTOR ... ... ... ... ... ... ... ... ... 2045

A model for implementing a paradigm of time-managed, material flow control in certain assembly systems. W. E. WILHELM, P. SOM and B. CARROLL 2063

PAGE

Adoption and implementation of group technology classification and coding systems: insights from seven case studies. M. V. TATIKONDA and U. WEMMERLÖV ... ... ... ... ... ... ... ... 2087

Tolerancing techniques: the state-of-the-art. H. C. ZHANG and M. E. HUQ 2111

A study of material flow systems (input/output) in high-bay warehouses. DJ. N. ZRNIĆ, N. LJ. ĆURPIĆ and B. LJ. RADENKOVIĆ ... ... ... 2137

Optimal replacement of ageing equipment using geometric programming. T. C. E. CHENG ... ... ... ... ... ... ... ... 2151

Utilizing a knowledge-based decision-support system as total quality management consultant. L. S. FRANZ and S. T. FOSTER, JR. ... ... ... 2159

Tolerance specification and comparative analysis for computer-integrated dimensional inspection. Q. GE, B. CHEN, P. SMITH and C. H. MENQ ... 2173

A model of condition monitoring of a production plant. A. H. CHRISTER and W. WANG ... ... ... ... ... ... ... ... ... 2199

A heuristic procedure for loading problems in flexible manufacturing systems. S. K. MUKHOPADHYAY, S. MIDHA and V. MURLI KRISHNA ... 2213

Comments on 'A model for determining job throughput times for manufacturing flow line workcells with finite buffers'. Y. A. PHILLIS ... ... 2229

A reply to comments on 'A model for determining job throughput times for manufacturing flow line workcells with finite buffers'. T. PARK ... 2231

Book reviews ... ... ... ... ... ... ... ... ... 2235

No. 10 October 1992

Impact of empty vehicle flow on performance of single-loop AGV systems. D. SINRIECH and J. M. A. TANCHOCO ... ... ... ... ... 2237

Consequences of using the $C_{pk}$ index to estimate the proportion of non-conforming items. B. J. MELLOY and M. J. CHANDRA ... ... ... 2253

Lot sizing and machining economics: the multi-item, multi-stage cost minimization case. C. P. KOULAMAS ... ... ... ... ... ... 2265

A storage assignment policy in a man-on-board automated storage/retrieval system. M.-K. LEE ... ... ... ... ... ... ... ... 2281

Co-ordinated planning for competitive products and their manufacturing operations. A. K. CHAKRAVARTY and J. E. BAUM ... ... ... 2293

Conjugative coding design and manufacturing information for computer integrated manufacturing. Z. ZHAO and R. W. BAINES ... ... ... 2313

Combined part selection, load sharing and machine loading problem in hybrid manufacturing systems. M. LIANG and S. P. DUTTA ... ... ... 2335

Comparing trigger and kanban control of flow-line manufacture. I. GRAHAM 2351

Integration of process monitoring, quality control and maintenance in an M/G/1 queue-like production system. L.-F. HSU and C. S. TAPIERO ... 2363

PAGE

A Petri-net-based state-transition model for an optimal operator cyclic walking pattern development in GT cells. H.-G. CHEN ... ... ... ... 2381

Operations sequencing in automated warehousing systems. M. EBEN-CHAIME 2401

Computation reduction for a large-scale Markov process model to analyse multistage production systems. D. WANG and T. J. HODGSON ... ... 2411

Neural network modelling and multiobjective optimization of creep feed grinding of superalloys. G. SATHYANARAYANAN, I. J. LIN and M.-K. CHEN 2421

Computer-based FMS facilities design tool. D. B. WEBSTER and S. V. MURTY 2439

The complete kit concept. B. RONEN ... ... ... ... ... ... 2457

A modified procedure for converting a dual graph to a block layout. L. A. AL-HAKIM ... ... ... ... ... ... ... ... 2467

Some observations on converting a dual graph into a block layout. M. M. D. HASSAN ... ... ... ... ... ... ... ... 2477

Book Reviews ... ... ... ... ... ... ... ... ... 2483

No. 11 November 1992

Machine planning in a product model environment. R. I. M. YOUNG and R. BELL ... ... ... ... ... ... ... ... ... ... 2487

Specification, modelling and control of a flexible manufacturing cell. HAN-PANG HUANG and PO-CHU CHANG ... ... ... ... ... 2515

Incorporation of tool-life variables in NC path planning. S. RAMAN and R. K. LAKKARAJU ... ... ... ... ... ... ... ... 2545

Capacity-based order review/release strategies to improve manufacturing performance. P. R. PHILIPOOM and T. D. FRY ... ... ... ... 2559

Simulation studies in JIT production. CHAO-HSIEN CHU and WEI-LING SHIH 2573

Impact of some flexibility factors in FMSs—a performance evaluation approach. M. BARAD ... ... ... ... ... ... ... 2587

Algebraic description for machine tool design. O. GARRO, P. MARTIN and H. MARTI ... ... ... ... ... ... ... ... ... 2603

Economic acceptance sampling plans in complex multi-stage production systems. H. L. LEE and G. TAGARAS ... ... ... ... ... 2615

Similarity coefficient algorithms for solving the group technology problem. A. KUSIAK and M. CHO ... ... ... ... ... ... ... 2633

Effect of maintenance policies on FMS failures. M. L. VINEYARD and J. R. MEREDITH ... ... ... ... ... ... ... ... ... 2647

The missing link between manufacturing strategy and production planning. B. RONEN and E. ROZEN ... ... ... ... ... ... 2659

Computer-aided dynamic preventive maintenance within the manufacturing environment. B. WU, J. J. M. SEDDON and W. L. CURRIE ... ... 2683

PAGE

Cusp geometry analysis in free-form surface machining. W. L. R. IP and M. LOFTUS ... ... ... ... ... ... ... ... ... 2697

Computer-aided evaluation and selection of optimum grippers. V. P. AGRAWAL, A. VERMA and S. AGARWAL ... ... ... ... 2713

Book review ... ... ... ... ... ... ... ... ... 2733

First announcement and call for papers ... ... ... ... ... 2734

No. 12 December 1992

GT cell formation for minimizing the intercell parts flow. S. SONG and K. HITOMI ... ... ... ... ... ... ... ... ... 2737

Stochastic mathematical modelling and manufacturing cost estimation in uncertain industrial environment. N. K. JHA ... ... ... ... 2755

On the resources allocation problem. G. CHRYSSOLOURIS, K. DICKE and M. LEE ... ... ... ... ... ... ... ... ... ... 2773

A CAD/CAM system for spatial cams. M. YANG and C. KIM ... ... 2797

Heuristic and optimal approaches to lot-sizing incorporating backorders: an empirical evaluation. S. M. GUPTA and L. BRENNAN ... ... ... 2813

Some investigations on plunge feed centreless grinding process. S. S. PANDE, A. R. NAIK and S. SOMASUNDARAM ... ... ... ... ... ... 2825

An AI-search technique-based layout planning method. L. C. SHIH, T. ENKAWA and K. ITOH ... ... ... ... ... ... ... 2839

XPC: an on-line expert system for statistical process control. D. T. PHAM and E. OZTEMEL ... ... ... ... ... ... ... ... ... 2857

A framework for assessing the flexibility of manufacturing systems. V. P. KOCHIKAR and T. T. NARENDRAN ... ... ... ... 2873

The cost advantage of hysteretic controls for bi-level production systems. J. J. BERNARDO ... ... ... ... ... ... ... 2897

Optimization of machining conditions with practical constraints. Y. C. SHIN and Y. S. JOO ... ... ... ... ... ... ... ... ... 2907

Effect of R&D product and process expenditures on new product introductions. M. HOSSEIN SAFIZADEH and D. C. MURPHY ... ... 2921

New capacity sets for the hedging point strategy. J. B. LASSERRE ... ... 2941

Book reviews ... ... ... ... ... ... ... ... ... 2951

First announcement and calls for papers ... ... ... ... ... 2955

Announcements ... ... ... ... ... ... ... ... ... 2956

Referees 1991/92 ... ... ... ... ... ... ... ... ... 2959

Index of Authors (with titles) ... ... ... ... ... ... ... 2967
